Client Centric

We always start from your perspective, identifying the risks your business faces and how we can protect it.

Data Driven

The ongoing digitisation of VAGT operations enables us to offer your business better analysis, risk assessments and solutions for preventive security measures

People Focussed

VAGT is a responsible employer, and we believe we have the best and most engaged employees in the industry.

Introductins:

We present VAGT Security Services Private Limited, as a company totally dedicated to provide quality service to its esteemed customers. A Four years old company, VAGT which started with manned guarding and allied services has transformed itself as a totally integrated services with various security and safety audit programs. We are capable of providing complete audits solutions as a package.

The company today not only has the capability of an integrated audit company. We are capable enough to provide solutions of observations and non conformity.

We at VAGT understand the present issues of the industry and constantly strive to circumvent those with a structured approach. We optimize the manpower by implementing technology. We take care of finer aspects of quality but at the same time give more emphasis on basics and its continuous delivery, as we believe that basic is where the quality originates.

The company is driven by two strong directors who have been working in security & Facility Management Services in various MNC companies for past 30 years and are bound to transform their Industrial experiences to serve all clients across all industry , Residential Complex, Commercial complex etc We believe in robust and rigorous training to the security staff before deployment.

VAGT also take other SOFT SERVICES for clients. We have various trained hands to handle soft services. We optimize the cleaning aids & Manpower by proper training of staff by the professionals.
